Suggests a Solution For Exchange Evil

Since the U.S. discount of Canadian currency is one of the costly items in the economic life of the country today, it behooves each and everyone of us to study the causes, effects and remedies of this exchange evil, and towards this end I offer the conclusions and results of my investigations for what they are worth. Since our banks quoted here are taken from the Canadian Almanac for 1920 and therefore should be correct, of course the reader realizes that if we add an equal value to the U.S. as we buy from them our banks could return American money in exchange for Canadian, but on account of our imports from the U.S. exceeding our exports to them by \$20,224,956, our banks must offer American banks either gold, specie, currency, or foreign money, to balance this amount. By the term currency I mean paper money. Since our banks refuse to part with gold or specie and since the foreign money is not worth any more to us than our own currency under the present rate of exchange, the result is that the American money operators and banks arbitrarily set the percentage of discount at which they will accept Canadian currency in exchange and for the purpose of illustration we will set the amount permanently at 15 per cent, which on the American market during the past few months would mean a discount approximately 20 per cent on the pound sterling in the U.S. We are in reality a creditor rather than in debtor nation, the balance of trade for 1919 being \$25,235,500 in our favor, but for the purpose of this illustration we will simply consider the balance of trade with the British Empire which is \$20,224,956 in our favor.

It is reasonable to suppose that when our money at par in the U.S. we would be charging the British Empire on the pound sterling the same discount as the U.S. discount, 15 per cent, and then we this British money to pay our balance of 200 million to the U.S., paying of course the same rate of discount as we had just charged the British, thereby removing the burden from the consumers in this country who do not desire the British money as currency, but as a means of paying our currency at par in the States by means of the balance of trade with the British Empire, and of course destroying the currency as returned unless they pick up additional security with the Dominion Government to justify the continuation of it in circulation.

The banks are supposed to loan currency only on a gold reserve and since the currency is only paper, check, or promises to pay, on the gold, the banks should bear the burden at the present time instead of penalizing the people like 15 per cent

on consumption, the necessities of life consumed by the masses.

You will find on reference to the Canadian Almanac, page 115, that there is in circulation \$217,608,195 in currency (paper money) and there is a gold reserve of only \$187,200,000 lot of course the banks hold enough Dominion, Provincial, and Municipal bonds and other securities to make them solvent. They would not be obliged to use even the \$7,200,000 of gold if paid direct on bills of exchange, to reimburse the bank of America at par in the U.S.A. and once established keep it there by discounting foreign money the same percentage as the States wherever the balance of trade is in our favor and using the foreign money to pay our bills in the U.S.A., thereby removing the burden from the people in Canada.

The deeper you investigate this subject the more convinced you will become that the fault lies in our own financial system, banks, profiteers, etc. and could easily be remedied by simply forcing the guilty parties to pay for their own mistakes rather than passing the burden onto the silent and long-suffering masses.

Further, once our dollar is established, we should put through a treaty with the U.S.A., and all the gold standard countries, if possible, to treat each other's currency as legal tender at par, or face value. In the countries who are parties to the treaty so long as the banks of these countries are solvent, and paper money should not be loaned as legal tender, promises to pay, on some imaginary, shadowy, or stored away gold reserve, but of course, each country within itself for its own protection, should enforce the legislation now upon its statutebooks, or make such new legislation as necessary to protect itself from such a reckless currency issue as to become insolvent, and how can a country be insolvent as long as its natural resources, fur, timber, grain, furs, minerals, lumber, timber, transportation facilities, people, the potential energy necessary to develop this wealth, a willingness to pay, all equals in market value thousands of times the amount of currency in circulation. Canadian paper money should be legal tender at face value in the U.S. or any other country, as long as it is convertible into gold or silver, and one credit will remain good as long as we, as a whole, maintain a responsible currency, and maintain our natural resources which we are now looting with, and develop them with our own capital.

During the Great War, and since, we have been repeatedly asked to increase production. We have increased it, valiantly, considering all handicaps. And now, we the mass of the people, the consumers, are being penalized in all the accessories of life for it. Recently I bought a sunny order at a Canadian Post Office for one dollar, payable in Chicago, and was charged the regular price of 12 cents for value, on this day the exchange rate was 12 per cent.

The banks are anti-producers as they charge the public 15 per cent, more or less, on all money the public desires to send to the States, whereas they are obliged to pay exchange only on the difference between their debt and credit, and in exchange with the U.S.A.

Price Bore are not with a measure of a school during the past year to sell all their products because the law for the American dollar, which has convertible into \$115 in Canadian money, that in our banks have employees, and for the public and money market, in Canadian money, at the rate of 100 cents on the dollar, and all consumption of paper in Canada is penalized to that extent, as the American market governs, meaning that this exchange rate now is a 15 per cent protective tariff, for the consumer with something of expensive value in gold, which the Canadian consumer must pay, with no revenue to the Government. Pressure from some sources, no doubt, the power given over the bank of America in 1914, and some action regarding Price Bore.

The higher interest of the bank is guilty of the same crime as, indeed, are many others, only in a greater extent, and we are informed through the daily press, that the Board of Commerce holds that they have no jurisdiction in the matter. Common ship has advanced in the currency from \$25.00 in 1914 to \$75 today with \$25.00 to \$50.00 in this advance since last October 1, other prices in proportion.

The Board of Commerce claims that their efforts are effecting the high cost of living. However, they claim that they had a maximum rate of price of 16 per cent, per pound on sugar at the reference. Sugar has never sold up to 16 cents per pound by the retailers here in the west during the time the set price was in effect, thereby proving that their set price was not in effective operation. Now that the increased cost of sugar, crop failure, and other economic conditions, make it certain that sugar will advance in price, The Board of Commerce take off their shoulders

Canadians Mine "Stone For Spinning" Asbestos

Asbestos Pit
Crude Canadian Asbestos, Theford Mines

Making Asbestos Yarn

The greatest known deposit of asbestos in the world is in the Province of Quebec and the mining of this extraordinary mineral has developed into an important industry. Most of the asbestos mined in Canada is exported to the United States and there manufactured for commercial purposes. A great American industry is thus dependent on the Canadian raw asbestos.

Asbestos derives its name from a Greek word meaning "inconsumable" and although the knowledge of the fire-resisting qualities of asbestos is very ancient, it is only in the last decade that its multitudinous uses have become a matter of common knowledge. Greek and Roman historians tell that the corpses of their kings and heroes, when prepared for extinction, were wrapped in in-

combustible blankets to separate their ashes from those of the funeral pyre; Charlemagne surrounded his guests on one occasion by having a tablecloth, made of "cotton stone," cleaned after a meal by throwing it into the fire and taking it out unharmed, but it has been put to use only in modern times.

The fine quality of Canadian asbestos and the ease with which it can be spun and woven—a very good imitation silk can be made from it—has caused American and English capital to investigate the Canadian mines with the result that great mining camps have arisen at Black Lake and Theford, Canada is now the center of the asbestos mining industry of the world, producing about 75,000 tons yearly, with the value ranging from \$100 a ton for the best grade down to \$10 a ton for the poorest.

Strathmore, Alberta, March 24th 1920

G.W.V.A. AND PATRIOTISM

At a recent meeting of the local G.W.V.A. Executive a resolution was passed and a deputation appointed to wait on our newsmen, asking them to discourage the sales of the Hearst publications, which have been so active in endeavoring to stimulate enmity between the British Empire and the U.S.A.

Attention was called to several other points, including the more frequent display of the country's flag locally, and a cultivation of a proper sense of respect when the National Anthem is played at the close of any meeting or entertainment.

At present the playing of the National Anthem is the signal for a stampede to exit the place. This is altogether wrong. It is the duty of everyone living in this country to show a proper respect for the customs and traditions of the Country. The flag and the anthem are symbols of what the Great War was fought for, liberty and democracy, and if these are worth fighting and dying for, they are worthy of respect now.

We hope this little article will have the effect intended, and that in the future when the National Anthem is played one and all will stand until the last bar is played.

The British Empire is the greatest force for freedom the world has ever known. It is a privilege to live under the Union Jack. Conform to the customs of your country and show proper respect when the flag is flown or the National Anthem played or sung.

CADET CORPS ORGANISATION

The reorganization of the local committee for the province of Alberta of the Strathmore Trust having been completed, the annual meeting will be held in Calgary, at an early date.

Throughout the province there is a general interest in the organization of school children, both boys and girls. The Strathmore Trust is the controlling body of the cadet movement throughout Canada and the local provincial committee administrator, the funds at Ottawa to this Province. Since taking over the command of Military District No. 12, Brig. General A. H. Bell, C.M.G., D.S.O., has devoted a great deal of attention to the cadets by virtue of his appointment as General Officer Commanding. Brig. Gen. Bell is chairman of Strathmore Trust.

Cadet Corps may be formed in any public, separate or private school or college, as well as in any public unit in the province. Every recommendation is given in the organization of Cadet Corps by the authorities at headquarters of M.D. 15, Calgary and any information desired on the subject will be furnished on request. It may be added that certain equipment and outfit are furnished by the Militia Department, without cost to the cadet corps, and money grants are made to the instructors who train the cadets in physical drill and the minor drill formations, the grants being made according to the number of cadets enrolled and trained, and efficiently attained.

There are numerous trophies offered for annual competition in drill, physical training and rifle shooting among the cadets. Public spirited citizens and associations, as well as the Strathmore Trust, have presented handsome prizes from time to time. Some are for local competitions while others are open to cadets throughout the province, and it is anticipated that the number of prizes to be offered this year will be greatly increased.

There is a project on foot to form a physical training class for benefit of store keepers and those ex-servicemen who would like some physical "jerks" to keep them down so that they can wear their uniform when they have to.

It is always good business to do business with the advertising merchant. The man who is anxious to get your trade and who has something worth while to offer you will be found advertising in our columns.

Mr. J. H. Brand has been fortunate in securing a carload of sugar, and his initiative makes it certain that the anticipated sugar shortage will

not hit Strathmore as hard as it will hit some other places.

TENNIS

A meeting of the tennis club will be held in the Town Hall on Friday March 26th 1920 at 8 p.m. sharp. Mayor Lambert has kindly consented to preside.

A cordial invitation to be present is extended to all ladies and gentlemen interested in making the club live one during the 1920 season.

W. CHAFFORD, Secretary

Ardenote Notes

What the Junior members of the Ardenote local U.F.A. failed to think of in the way of entertaining the crowd in their efforts to make the local social ball at the schoolhouse on Saturday night didn't amount to much. Songs and recitations, humorous and otherwise an exceedingly funny dialogue very well rendered, games, dancing, a raffle for a pig presented by August Jensen, and last but not least a number of boxes put up in their infatigable way by the hosts at the district. Prizes were given for the best songs and recitations and the other prizes were won by Mrs. Jensen, Mrs. Jones, Miss Thorne Hoode, Miss May Goulard and Miss E. Jones. The prizes were to be handed out tomorrow as the results of the efforts to aid our drought stricken friends in the South. The gross proceeds of the evening amounted to \$130.00.

The next general meeting of the Ardenote U.F.A. will be held in the schoolhouse on Saturday, March 27th at 2 p.m. when the requirements for the spring will be talked over, particularly athletics, etc.

The officers of the local wish to urge the members to come to this meeting. The attendance has been the reverse of good lately and it is up to every farmer to show up, not only in the own interest, but in the interests of the community as a whole.

Let us not only preach conservation but put it into practice as well. Let every farmer bear the words from the U.F.A. as always before him. The die is cast, it's up to you.

The pig raffled at the social held by Ardenote U.F.A. was won by Mrs. Shannon, who generously resold it at once, turning the proceeds to the Central Drought Relief Fund at Calgary.

Mr. Hicks had the misfortune to fall off a scaffold one day last week fracturing his collarbone. He is, however, making good recovery.

Mr. Sherman arrived back from the coast two weeks ago after a pleasant holiday.

Mr. and Mrs. Tom Chamberlain and family arrived back from Vancouver after a six weeks holiday.

UNRESERVED Auction Sale

45 Head Cattle
22 Head Horses

ERRATA

We regret that by mistake in Mr. and Mrs. M. B. Garrett's card on Thursday last issue, it was made to appear that they had suffered a bereavement. The word "bereavement" should have read "illness."

Another mistake falls to be amended, in the paragraph relating to sale of house property. Mr. Crawford bought Mr. Joe Donnell's property on Second Street, and Mr. Wm. Marshall bought the Dr. Givins house on First Street. Last week's paragraph made it appear that Mr. Crawford had bought both.

LADIES AUXILIARY TO G.W.V.A. TO BE FORMED

Steps will be taken at a meeting to be held tomorrow evening to form a Ladies Auxiliary to Strathmore G.W.V.A.
Mothers, sisters, wives, etc., of G.W.V.A. members, or of soldiers deceased who would have been eligible for membership in the Ladies Auxiliary, and there is no reason why the Auxiliary should not be a strong and useful organization.
The meeting will be held in the King Edward Hotel tomorrow (Thursday) evening at 8 p.m.

THE DAVID COWAN FUND

A number of other contributions to the David Cowan Fund will be completed in next issue. One name omitted in last list was that of Mr. B. D. Davis, who contributed \$20.

Harvey U.F.A. will give Social Dances & dances on Friday, April 2nd, and on the David Cowan Relief Fund. A strong committee of the Ladies Auxiliary is in hand, and a good time and a large attendance are expected.

HIRTLE & CAINE Building Contractors

Local Bittings

Last week was Tag Week for the local dogs, and a respectable sum was collected for the benefit of the Town of Strathmore Relief Fund. The amount raised from the dogs will help to keep Strathmore from going to the dogs.

Some of our readers may think that the author of the foregoing paragraph ought to be severely bitten.

Buy your Easter Gifts at the sale on Saturday, March 27th at the King Edward Hotel Sample Room. Sewing, crooked food, etc. Cathoie Ladies Aid. 24-9

A Grand Concert will be held at the Strathmore Opera House on Monday, April 15th with many well known local artists appearing. Keep the date in mind.

Serret W. Woods, 21st Bn., arrived back from overseas on Friday, accompanied by Mrs. Woods. Serret was enlisted early in the war with the 21st Battalion, and has considerable active service in France before being wounded in the thigh. He was afterwards employed in the Pay and Record Office in London. Previous to enlisting he was employed in the Dominion Station Farm. His many friends are pleased to welcome him back again, and welcome Mrs. Woods to the town.

Strathmore Women's Institute will have a dance in the Grand Opera House on Easter Monday evening, April 25th, 1920. All cordially invited. Tickets \$1.00 for gentlemen, ladies 50c. Lunch will be provided, and Mrs. Telford's orchestra will provide the music.

Watching the Russian Demonstration on Friday and Saturday it makes one wonder how it is that an expert can take an engine in little time without taking his coat off or hardly drying his hands, while the ordinary man who has one finger lost in the engine, or something like that, will spend hours and waste a rub in clothes on the job.

There is an old saying about "Winter thawing in the lap of spring," but this winter has outwitted spring a bit. On Sunday it was quite warm, and the water was running so freely that it was flooding the cellars, and banks were eroded up in one local church for the coming of spring, but Monday morning the north wind blew again, and the water was frozen once more. However, spring will come sometime. A hard winter is said to be the forerunner of a good crop, and with the amount of goodness (weather) and the kindness with which the farmers are looking forward to the coming of spring.

The high prices being obtained for the various sales are good indication of the potential wealth of the district, and show the confidence with which the farmers are looking forward to the coming of spring.

Spring will soon be here, and the sound of the Plow will be heard in the land. Old Dobbin has had the laugh on the farmer this winter.

Mr. F. T. McElroy wishes to inform our readers that the contribution in his name to the fund for the Russian Relief Fund should have been as representing the subscription of several members of the U.F.A.

Miss Irene Montgomery is starting a dancing class for small children at her home on Friday, March 26th for terms phone 61.

Members and friends of the Anglican Church are asked to remember the Rummage Sale to be held upon the same date as the sale of children's clothing and shoes (Saturday, April 10th). Donations are asked of clothing, dishes, cooking utensils, pictures, etc., books and magazines.

The School fall committee and all interested will meet on Friday of this week at 5:30 p.m. in the Fire Hall. This is important and a full attendance is desired.

The Ladies Aid Society will hold their annual Purvey Sale on Saturday April 2nd. Afternoon tea will be served. Note the date.

The Palace Bakery and Ice Cream Parlour open on Friday morning of this week in the old Martin and Evans Block. For the last two weeks Mr. Gray has been busy having his oven and already he has orders for a large proportion of his product. His aid will be found on another page.

There are several auction sales advertised in this issue, all being conducted by Mr. Layzell.

Mrs. G. T. Berry has returned from her visit to the coast.

Some Splendid Values

Craigantler

—0—

We all welcome Mr. and Mrs. Draper to our midst and hope to get better acquainted.

Quite a number attended the Massey sale last week and some of it will remember it for some time. We thought our roads were bad but, Oh boys! no wonder the man sold his farm.

There will be a dance in the Craigantler schoolhouse on Friday, April 25th. It is a long time since a dance was held in the district. With the new floor and the best of music, which it is proposed to have, everyone is assured a good time.

We hope the Craigantlers will remember that our old friend Will Craigantler is agent for the Massey Harris Implement Co. There are none better on the market and we are sure Bill will get his share of the business.

We are pleased to learn that Mrs. N. Hughes is on the road to better health again. Dr. Davies of Glenora is being in attendance. The Doctor is getting better known as the weeks pass. We wish him all kinds of success but hope we need not wait.

L. Selgeborn is enlarging his barn. The new improvements will cost quite a lot at the present price of lumber.

J. K. Crapo intends going into the dairy business. He purchased several fine cows lately.

Mr. and Mrs. R. Schreiber and family returned home after a few weeks sojourn in the States. They had the misfortune to have the flu while there, but it didn't seem to have left any bad effects.

Andy Hansen of Husar has been spending a few days with his parents Mr. and Mrs. M. C. Hansen.

SILOS AND SUNFLOWERS MULTIPLY FARM PROFITS

Continued from front page

years, and they state that when the sunflower is very fond of it, and that they also feed it at the rate of thirty pounds per animal per day with good results. We have grown sunflowers here at the University for several years with success, but we did not take a yield test under this year. We have also varied some of the crop for the purpose of testing its suitability. Personally, I think that there can be no question about the suitability of the crop for cattle purposes. It contains the features of high yield, drought resistance and evidently reliability to feeding qualities.

From the foregoing, and much more that could be added to it, it seems certain that the sunflower is destined to become an important crop in the Canadian West. With a yield of bushels, and a feeding value of about equal to that of any other fodder crop, it will enable the farmer to have a live stock to be supported on the same land, and with the use of silage his number can be further multiplied. With this crop generally grown, the dairy industry, which has already made immense strides in Western Canada, will receive a further great impetus. And since it is claimed that equally satisfactory results are obtained with sunflowers in raising of beef cattle, sheep and hogs, the growing of this crop will enable mixed farming to be carried on more successfully, thus ensuring still greater prosperity, not only among the farming community, but in the country generally.

From Western Canadian Bulletin

Namaka Items

Spring is surely on the way. Wild geese were observed sailing over Namaka lake on Saturday.

The old Fort Hall in the village belonging to Ben Whart is being destroyed for transportation to a farm eastward.

Namaka was treated to a little excitement on Saturday. The McKinnon family had started a young lot of cattle, one of which was a dog, interested and scared the team which loaded. The school was the only thing to receive injury.

The stockholders of the T.G.G. Elevator held a meeting in the Elevator office on Saturday afternoon to hear report of delegate to business meeting in Winnipeg, Mr. Th. Thorsen gave a full and exhaustive report of the business done and was awarded a vote of thanks by the meeting.

Can anyone suggest a method to solve the farmers' interest in affairs peculiar to their interest?

Mr. and Mrs. Lane of Nepona, Wis. are visitors of Mr. H. H. Thompson. They are enroute to Washington.

Several members of Mr. H. E. Thompson's family have been sick with the measles, but are now doing fine. They contracted the disease when visiting Schabas.

The people of Namaka are gladdening the hearts of the farmers, as the ground seems to be absorbing a big percentage of the moisture. The feed situation which was beginning to look serious will be relieved when the snow goes, as the cattle will be able to pick over the stubble.

Poultry Notes

—0—

The community hatchery where the farmer can purchase his baby chicks or have eggs incubated in any quantity to suit himself is proving a great success in the United States and Eastern Canada and the West is following right along.

This is a new fact of modern civilization when one considers that it was practiced by both the Chinese and Egyptians thousands of years ago. It is, however, only in the past ten years or so that it has become a practice in this country.

When the farmer stops to figure it out it is really the only way to secure the best of each year and in the process where the season is so short it is even more in his favor than elsewhere.

It is hard to say with a certainty, but it is probable that early May chicks are being compelled to use the first hatchery that is started in.

In the great majority of cases these birds are the best producers and they are the best.

THE HALL INSURANCE BOARD

—0—

The delegates from Bow Valley Convention at Calgary last week were Messrs. W. M. Galleney and D. W. Powers attended on behalf of Kootenai Municipality.

The Convention was brought to a close with a banquet given in the hall of the Palliser hotel Thursday evening at which over a hundred delegates were present. Opinion was the keynote of the various addresses. It was the first real get-together affair in the history of the association, and it is thought the benefits of this hearty cooperation between the hall and the various municipalities affected with will be realized to the full of the association during the coming year.

Among the speakers during the evening were Messrs. W. M. Galleney, Harry Bell, Norman, D. Sinclair, Valiant, Robert Gaudin, D. W. Powers, H. H. Thompson, and A. H. Toth, the popular secretary of the hall insurance board.

At the afternoon session, in the hall of the Palliser hotel, the week was planned by the board for the various secretaries of the municipalities who are affected by the hall insurance board.

Twelve explained at some length the workings of the act, and the duties of the municipalities who are affected by the hall insurance board.

It was pointed out that the necessity of securing an act to protect the hall insurance board, explaining that now that the merits of the act were proven, the farmers would readily accept the hall insurance board, and the protection offered by the hall insurance board.

Advertising

May have been the luxury of yesterday, but it is the necessity of today, to every business man who wishes to get ahead and get the trade of the district in which he is located.

Well written and snappy advertising will produce results out of all proportions to its expense. We are willing to help you write your ads, if you supply us with an idea of what you want to advertise.

A lot of business goes out of this district that might as well be kept here if you go after it. You can get in touch with the people of the Western Bow Valley every week through the medium of the Strathmore and Bow Valley Standard, the only medium covering the whole of that territory.

The season for heavy buying will soon be here. Spring needs must be supplied. You can supply them if you let the people of the district know that you can sell quality goods at right prices. Let them know what you have through the columns of the

STRATHMORE & BOW VALLEY STANDARD

A RATTLING GOOD TONIC

That is what one of my customers calls
REXALL DIGESTIVE TONIC
Another man said it sweetened his wife after
being a sour dyspeptic for years.

One wife said she had to take it away from her
husband, she couldn't cook enough to satisfy the
appetite it gave him.

Stories like these make us enthusiastic about
REXALL DIGESTIVE TONIC.

If you are not feeling up to the mark perhaps
your stomach is causing the trouble. Worth while
finding out anyway.

Footballers Get Busy

Since publication in last issue of the
letter from Brooks Football Club, asking
what Strathmore was going to do
regarding starting a football league,
we have received numerous inquiries,
and everybody who knows anything
about "soccer" or "fltha" seems to
want to see a team going here and
enter the league.

Will all interested in a football
team meet at the town hall on Sat-
urday night, when if the attendance
warrants it, a club will be organized.
There are a lot of good footballers
in and around Strathmore. Last week's
letter from Brooks Football Club, asking
what Strathmore was going to do
regarding starting a football league,
we have received numerous inquiries,
and everybody who knows anything
about "soccer" or "fltha" seems to
want to see a team going here and
enter the league.

Namaka News

The epidemic of flu in the Hammer-
hill district is arrested meantime, and
all the patients are recovering.

H. Brown sale last Wednesday was
well attended and the prices got were
good.

The U.F.A. met in the schoolhouse
on Saturday afternoon when there
was a good attendance.

In discussing the official circular,
President Wheeler gave his recent
impression of the deleterious effects
of protection on the agricultural in-
dustry in U. S. and thought Canada
would follow suit unless the farmers
organized and took a political inter-
est in the affairs of the country.

The quotations of the U.G.G. Co.
for supply of formaldehyde and styrene
were favorably considered.

The local is to make inquiry with
the object of having rural postal
deliveries instituted in the district.

A subscription on behalf of the
donor, struck home, is to be
opened and it is hoped that everyone
who can will subscribe. The smallest
donations will be thankfully received.

Arrangements are to be made to
have the list in M. McLeod's store.

Why don't all the farmers become
members of the local?

Sunday's Mizzard made the cat-
tleman's life around. So far there is
no return as to how the sheep are
becoming rather slow.

Nightingale U. F. A.

Hold a very successful social evening
on Friday last, in aid of the
Donor Relief Fund. Mr. Guy John-
son, Calgary, director of the U.F.A.
movement, was present, and
spoke on the Farmer's Political Move-
ment and also on cooperation. He
also made a strong appeal for the
Southern farmers. \$125 was collected
at the social, which makes a total of
\$1,000 for the Nightingale U.F.A.
A very creditable record.

The next meeting will be held on the
last Saturday in March, when every
member is particularly requested to
be present, as matters of the utmost
importance will be discussed.

**I WANT YOUR LAND
TO SELL**

I can sell your land and
price is right. Send for my free list-
ing form.

E. MUNNIE
224-48 Ave. W. Calgary

LAND BARGAINS

We have now the following land to
sell on crop payment, 490 acres \$2
million worth of term known as the
Rogers farm, well improved. This is a
real farm and a good money maker.
Don't miss this chance to have some cash
and 400 acres west of Town
known as the Star Section, well fenced
and improved, 200 acres culti-
vated, 200 more can be, 200 acres in
2025, including the A. Post farm, im-
proved, 200 acres of this can be farmed,
with a fair cash payment. This land
can be bought at \$22.00 per acre
is only three miles from station.

15 acres with house, barn and other
buildings, fenced and broken, only
1 mile from Strathmore, \$1000.

The substantial men of any coun-
try as a rule are the men who hold
the title to the Real Estate of the
Country. The opportunities to get in
with small amounts of capital are
few and far between. Do not miss this
in an opportunity, others are, and
are making good.

SEE MEHMOES, THE LAND MAN.

Strathmore Lodge
No. 53

BUY AN IRRIGATED FARM

FROM
THE CANADIAN PACIFIC RAILWAY

BECAUSE
Irrigation makes the farmer in-
dependent of rainfall, and insures
good crops, not occasionally, but
every year.

Irrigation makes possible the
successful culture of a diversity of
king of farmers, which insures
good returns in dairying and
stock raising.

Irrigation means intensive farm-
ing and close settlement with all
the advantages of a densely pop-
ulated agricultural community.

Irrigation in the Canadian Pacific
Railway Irrigation Block is no
longer an experiment, the
years that it has been tried
having absolutely demonstrated
its success wherever intelligently
applied.

This is the most liberal offer of irrigated farm in Canada now on record. For
full particulars, apply to

ALLAN CAMERON, General Supt. of Lands
Canadian Pacific Railway, Div. of Natural Resources,
Calgary, Alberta
